OSAGE Grocery and Market 107 EAST FIRST We Are Being Boycotted The labor unions of Tulsa have pickets in front of our store, so we won't be hard to find. These pickets wear banners stating that we are "UNFAIR" to organized labor. We admit that we do not approve of the extent to which organized labor goes to try to control. We maintain that the object is to destroy rather than build up the country's resources and industries. They are the people who raise most of the "howl" about the high cost of living. And yet they will go into a store whose proprietor says he is "fair" to them and pay more for their goods than a so-called "unfair" merchant would charge them, which proves the writer's contention that they want organization rather than economy.
